

MUHAMMED MUBASHIR K P

Kannur, Kerala, India | +91 8301903269 | muhammedmubashir3077@gmail.com | github.com/muhammedmubashir786

PROFESSIONAL SUMMARY

Certified SOC Analyst with hands-on experience in network traffic analysis, threat detection, and vulnerability assessment using Wireshark, Nmap, Splunk, Burp Suite, and Metasploit. Completed 20+ cybersecurity labs through TryHackMe and structured training at Red Team Academy with a focus on SOC operations and incident analysis. Additional experience in developing secure web applications using React, Next.js, and Supabase. Seeking a SOC Analyst Level 1 role to contribute to real-time security monitoring and threat mitigation.

CORE COMPETENCIES

- Security Monitoring & Threat Detection
- Network Traffic Analysis (Wireshark)
- Web App Security Testing (Burp Suite)
- Incident Analysis & SOC Operations
- Secure Web Development
- SIEM & Log Analysis (Splunk)
- Vulnerability Assessment (Nmap)
- Penetration Testing Fundamentals (Metasploit)
- Linux / Kali Linux
- Problem Solving & Analytical Thinking

TECHNICAL SKILLS

Cybersecurity Tools: Wireshark, Nmap, Splunk, Burp Suite, Metasploit

Operating Systems: Linux (Kali Linux), Windows

Web Technologies: Next.js, React, TypeScript, Tailwind CSS, Supabase, HTML, CSS, JavaScript

Other Tools: Git, GitHub, Vercel, Web Deployment

PROFESSIONAL EXPERIENCE

Freelance Web Developer

April 2026 – Present

- Developed and deployed 3+ web applications, including admin dashboards and secure web solutions
- Built a secure web application (Vibecode) with a focus on safe data handling and structured design
- Designed responsive, user-friendly interfaces using Next.js, React, TypeScript, and Tailwind CSS
- Integrated backend services using Supabase for real-time database and authentication handling
- Managed the complete project lifecycle independently, from requirement gathering to deployment
- Collaborated directly with clients to deliver customized solutions based on business needs
- Applied secure coding practices to reduce exposure to common web vulnerabilities

CYBERSECURITY EXPERIENCE

- Performed network traffic analysis using Wireshark, inspecting HTTP, DNS, and packet-level data
- Conducted port scanning and reconnaissance using Nmap to identify open ports and exposed services
- Used Splunk for log monitoring and basic threat detection in simulated environments
- Practiced web application security testing using Burp Suite
- Gained exposure to penetration testing techniques using Metasploit
- Completed 20+ hands-on labs on TryHackMe: network security fundamentals, threat detection and analysis, SOC operations basics
- Completed structured cybersecurity training at Red Team Academy covering security research and defense techniques

PROJECTS

Secure Web Application – Vibecode

- Developed a secure web application using React and Supabase
- Implemented structured data handling and application logic with a focus on security
- Designed the system to reduce exposure to common web vulnerabilities

Admin Dashboard Applications

- Built multiple admin dashboards using React for data visualization and management
- Designed clean UI/UX for efficient user interaction and system control
- Integrated backend services for real-time updates and structured data flow

EDUCATION

Bachelor of Commerce – Banking & Finance

University of Calicut, Kerala, India | 2022 – 2025

CERTIFICATIONS

- Certified SOC Analyst (CSA) – EC-Council, 2026
- Certified IT Infrastructure & Cyber SOC Analyst (CICSA) – Red Team Academy, 2026
- Google Cybersecurity Professional Certificate – Coursera, 2026

ADDITIONAL INFORMATION

- Open to SOC Analyst / Cybersecurity roles in India, UAE, Qatar, and Remote; willing to relocate
